Explanation

1. You must have enough income for your personal needs.

And.

2. This income must be absolute.

Actually, these simple short explanation is all you need to know about asset management.

Further 100 pages I will try to convince you that such explanation is real.

And achievable.

I foresee many questions and misunderstanding.

The reason for this – strong lobby of international finance institutions and corporations.

When I write these two sentences on a board on my lectures, some people finish their study and leave class room.

Especially this often in countries with young local economics.

I ensure that if you are reading these words, you are able to allow the abovementioned rules.

I know abovementioned rules need more explanation, but again – the mission of this book to set up the first stone.

I know many people will not believe or argue.

But what I write confirmed by my own life and life of my students.

This book may be more about questions, not answers.

You will see further these questions.

I will give answers of course, but I mean nobody know you.

Nobody know your life, only you know.

My mission and mission of this book – to point your attention to this simple fact.

When I say you or I – it also means family.
