Have enough income for your private needs

In the present chapter I will speak about such strange thing as I will explain every word from the abovementioned, I hope you will find it useful.

Without understanding these simple things, not possible going further, looking for consultants in particular spheres of this business.

Of course, you will say something like “when I come and become client in one of a bank in Switzerland, it is very difficult to make a mistake, and if a mistake arise, it means the God made it”.

Well, yes, and we already touch one practical thing... I will tell this again – when we deal with money we deal with Swiss banks, yes.

Once I decide to do something with my money, not only spend them, I have to find out such country as Switzerland.

What I mean exactly?

In modern global world each country has its own role.

Russia – oil & gas, China – factories, Turkey – leisure, Greece – olive oil, Finland – fish, France – fashion, USA – dollar...and Switzerland – banks.

And when I want to buy olive oil I go to Greece, when I want to deal with money I go to Switzerland.

In modern world there is no need to go to every country of the world to buy or use services or goods of these countries.

But I must understand basic principles of global economy and give respect to them.

Sometimes I read strange articles in a newspaper about new olive oil farm somewhere in Siberia or similar things...it is possible, yes, but destroy global economic principles.
